Cris,

Suzanne has received two separate requests for the Stormwater Pollution Prevention Plan (SWPP) for the project at 20 BLACK BROOK ROAD, AQUINNAH, MA. One of those is from the emailer below, Adam Turner.

Can you create a FOIA-Online entry for this request? I will be sending you the other email shortly.

FYI – these requests will require a CBI determination.

Mike

Subject: RE:

Adam, this project is authorized to discharge construction site stormwater and associated discharges under EPA's Construction General Permit. Attached is the notice of intent (NOI) submitted to EPA for the project. Information on the Construction General Permit can be found on EPA's website: <https://www.epa.gov/npdes/stormwater-discharges-construction-activities>. I have also requested a copy of the site's stormwater pollution prevention plan (SWPPP) and I will pass that along when I can.

Please let me know if you have any further questions.

Thank you,

Suzanne Warner

Greetings Suzanne. I am Adam Turner, executive director of the Martha's Vineyard Commission. Recently the project at 20 BLACK BROOK ROAD, AQUINNAH, MA, was referred to us for regulatory review under our Development of Regional Impact program. We understand they have also applied for permit under your regulatory review process. Can we obtain electric copies of the materials presented to EPA?

Thank you for your help on this. We would be glad to share our material with you as well as we proceed though our application process.

Regards

Adam Turner
